ORDINANCE NO. _____ (NEW SERIES)

**AN ORDINANCE AMENDING THE SAN DIEGO COUNTY ZONING ORDINANCE TO
STREAMLINE THE COMMUNITY DESIGN REVIEW PROCEDURE AND TO UPDATE AND
CLARIFY THE EXISTING PARKING REGULATIONS**

The Board of Supervisors of the County of San Diego ordains as follows:

Section 1. The Board of Supervisors finds and determines that the following amendments will provide a necessary update to the Zoning Ordinance. Changes are being proposed in order to implement a new streamlined procedure for Community Design Review and to update and clarify existing parking regulations to ensure consistency with the new procedure.

Section 2. Section 5750 of the San Diego County Zoning Ordinance is hereby amended to read as follows:

5750 TITLE AND PURPOSE.

The provisions of Section 5750 through Section 5799, inclusive, shall be known as the Community Design Review Area Regulations. The purpose of design review is to evaluate site planning, architecture, landscape design, signage and lighting to ensure that new development is compatible with surrounding development and community goals. ~~These regulations is to~~ provide for the maintenance and enhancement of a Community's individual character and identity.

Section 3. Section 5754 of the San Diego County Zoning Ordinance is hereby amended to read as follows:

5754 DESIGNATED AREA.

An area that has been identified by the application of a Community Design Revue Area Designator shall be known as a designated area for the purposes of these regulations. Designated areas shall be subject to the Community Design Review Area Regulations of Section 5750 through 5799 inclusive. In addition, property subject to the Village 1 (V1), Village 2 (V2), Village 3 (V3), Village 4 (V4), or Village 5 (V5) Zones in the community of Fallbrook shall be subject to these regulations, and to the Fallbrook Design Guidelines, and to the Fallbrook Design Review Checklist.

Section 4. Section 5756 of the San Diego County Zoning Ordinance is hereby amended to read as follows:

5756 SITE PLAN PERMIT REQUIRED.

No building permit or discretionary approval pursuant to this ordinance shall be issued, nor shall any person construct or alter a building, structure, or parking area, nor shall any outdoor commercial or industrial use be established, on land subject to the Community Design Review Area Regulations until a Site Plan ~~plot plan~~ which conforms to the criteria established pursuant

to these regulations has been submitted and approved in accordance with the Site Plan Permit Review Procedure commencing at Section 7150. A Site Plan Permit is not required for any of the following:

- a. Alterations to the interior of a structure which are not visible from the outside.
- b. Zone Reclassifications, subdivisions of land, or other discretionary approvals not involving the design of buildings or structures, except that subdivisions in the I-15 Scenic Corridor shall not be exempt.
- c. Electrical, gas or other utility improvements where no associated discretionary permits are required, provided that any visible portion of such improvement does not exceed 24 inches in any dimension. The Director may require the applicant to submit an affidavit stating that the proposed utility improvement will not serve a use other than those uses presently occurring legally on the site.
- d. Temporary improvements associated with construction activities authorized by building permit. Said improvements shall include, but not be limited to, trailers, fences, and signs which do not require discretionary approval by other applicable sections of ~~the~~ the Zoning Ordinance.
- e. Signs exempt from ~~the~~ the Zoning Ordinance pursuant to Section 6203.

Section 27. Section 6782 of the San Diego County Zoning Ordinance is hereby amended to read as follows:

~~PARKING SCHEDULES~~

6782 PARKING REQUIREMENTS: USE PERMITS AND HISTORIC DISTRICT SITE PLANS

<u>Type of Occupancy Use or Structure</u>	<u>Off-Street Required Parking and Bicycle Spaces</u>
Uses conducted pursuant to a use permit or to a Historic District Site Plan.	The number of off-street parking and loading spaces, and bicycle spaces, shall be as required by the use permit or Historic District Site Plan. To the extent that the use permit or Historic District Site Plan does not specify the number of parking, loading, or bicycle spaces, the requirements of these Parking Regulations shall apply. Notwithstanding the parking requirements of this section, where a Historic District Site Plan pursuant to Section 5749a has been waived or exempted by the Director, existing buildings which are expanded or renovated shall be required to provide off-street parking only as determined by the Director to be feasible.

Section 28. Section 6783 of the San Diego County Zoning Ordinance is hereby amended to read as follows:

6783 PARKING REQUIREMENTS: SPECIAL PARKING DISTRICTS

Type of Occupancy Use or Structure	<u>Off-Street Required Parking and Bicycle Spaces</u>
Uses conducted within a Special Parking District as designated in Section 5761.	The number of off-street parking and loading spaces, and bicycle spaces shall be determined according to the provisions of Section 5761c. Notwithstanding the parking requirements of this section, where the Site Plan required at Section 5761c. has been waived or exempted by the Director, existing buildings which are expanded or renovated shall be required to provide off-street parking only as determined by the Director to be feasible, taking access from an alley or side street. The number of spaces shall be as close as possible to the number which would be required if the Special Parking District did not exist.

Section 29. Section 6784 of the San Diego County Zoning Ordinance is hereby amended to read as follows:

6784 REDUCTION OF PARKING SPACES: ~~PARKING ASSESSMENT DISTRICT.~~

- a. Parking Assessment District. The number of required parking spaces for uses and structures located within an assessment district formed to provide off-street parking shall be reduced by the number of parking spaces provided by the assessment district which are attributable to the subject property. For purposes of this Section, the parking spaces shall be attributed to each lot or parcel in the same ratio that the assessed value of the subject parcel bears to the total assessed value of the assessment district, unless the Board of Supervisors determines that the parking spaces should be attributed to individual parcels in another manner.
- b. Parking Reduction for Multi-Use and/or Mixed-Use Development. A parking reduction may be approved by the Director where it can be demonstrated that two or more adjacent multi-use and/or mixed-use developments on one or more lots or parcels have distinctly different parking demand patterns that allow for the shared use of parking spaces without conflict. Shared parking is most effective when land uses have distinctly different activity periods such as day and night or weekday and weekend. Shared parking reductions may apply to either new or existing development.

Requirements for approval of shared parking reductions are as follows:

1. Administrative Permit Is Required - An Administrative Permit, in accordance with Sections 7050 through 7074, shall be required for the sharing of parking spaces. The Administrative Permit shall apply to every property subject to the shared parking arrangement. In addition to the findings required by Section 7060, the following additional findings are required:

- i. The parking spaces to be provided for shared parking would be available as long as the uses requiring the spaces lawfully exist.
 - ii. The quality and efficiency of the shared parking would be comparable to the level that is otherwise required.
2. Shared Parking Agreement Is Required – The Administrative Permit shall include a condition requiring the applicant to submit a signed agreement between the applicant and the other property owner(s) providing the off-street parking spaces that are subject to the shared parking arrangement. The agreement shall be subject to the approval of the Director as to form and content and shall be recorded with the Office of the County Recorder.
3. Parking Study – The Director may require the applicant to submit a parking study, prepared by a qualified traffic or parking consultant, to assist the Director in determining the appropriate shared parking reduction. For existing development where new or different uses are proposed, the base parking demand may be based on either the County Parking Regulations parking ratio or on a detailed survey of actual parking demand for the active uses on the site. If a field survey approach is used, the study shall apply appropriate seasonal demand adjustments to determine the peak parking demand.
4. Allowable Walking Distances For Shared Parking – The shared parking arrangement will be more effective the closer shared parking spaces are to the uses they serve. The Director shall review and determine that the shared parking spaces are generally within the following desired maximum walking distances for customers/visitors and employees:
 - i. Customers/Visitors – 600 feet
 - ii. Employees – 1,000 feet

Section 30. Section 6785 of the San Diego County Zoning Ordinance is hereby amended to read as follows:

6785 RELATIONSHIP OF REQUIRED PARKING TO BUILDING SITE.

All required parking and bicycle spaces shall be located on the same legal parcel with the use or structure they are intended to serve, unless the site on which they are located is ~~within the Fallbrook Village Zones and meets the~~ subject to the Fallbrook Village Parking Regulations ~~or in~~ Section 8000, meets the provisions of Section 6788, or the site meets all of the following conditions:

- a. There is a traversable pedestrian route, not more than 600 feet in length over and along public streets or walkways or permanently established easements between the parking or bicycle spaces and the uses or structures to be served; ~~and.~~
- b. The site is already zoned S86 Parking Use Regulations or, all persons owning an interest in the site shall execute and record an agreement not to oppose a reclassification to the S86 Parking Use Regulations and then shall make application and pay the fees for this reclassification.

Section 31. Section 6794 of the San Diego County Zoning Ordinance is hereby renumbered to Section 6786 and is hereby amended to read as follows:

6786 **LOADING SPACES.**

Loading spaces shall be 10' wide by 35' long. All buildings containing commercial or industrial use types, hospitals, or institutions hereafter constructed, converted, established, or enlarged to increase their floor area shall be provided with loading spaces as follows ~~and as specified in the design manual:~~

a. Number of Loading Spaces.

Total Floor Area on Parcel (Other than floor area devoted to office uses)	Number of Loading Spaces
Less than 5,000 square feet	0
5,000 to 19,999 square feet	1
20,000 to 39,999 square feet	2
40,000 to 79,999 square feet	3
80,000 square feet and over	4 plus 1 space for each additional 50,000 square feet

b. Access. Loading spaces shall have safe and adequate means of ingress and egress for trucks to and from a public street or alley and through the parking area.

c. Exemptions. Notwithstanding the provisions of this section, mini-warehouses shall be exempted from the loading space requirements.

d. Exceptions. Notwithstanding the requirements set forth in subsections a. and b. above, loading spaces for uses conducted pursuant to a use permit, Historic District Site Plan, or community design review Site Plan in a Special Parking District, shall be determined in accordance with Sections 6782 and/or 6783.

Section 32. Section 6787 of the San Diego County Zoning Ordinance is hereby amended to read as follows:

6787 **LOCATION OF PARKING AND BICYCLE SPACES ON A BUILDING SITE.**

~~e.a.~~ Open Parking. Except as provided in Paragraph "d", open parking spaces shall be outside the ultimate right-of-way of any street ~~and~~. Refer to Section 6700 et seq. for fencing and screening requirements. Open parking spaces shall be located as follows:

ZONE/USE REGULATION	PERMITTED LOCATION
Residential & Agricultural Zones S80, S81, S88, S90, S92 Use Regulations Fallbrook Village 5 Zone	Anywhere except in a required front or exterior side yard. May be in interior side yard only when separated from abutting property by a 6-foot high solid fence or wall.
C30, C31, C46 Use Regulations	Anywhere except in a required front yard.

Other Commercial Zones, Industrial Zones, S82, S86, and S94 Use Regulations.

Anywhere except in a required landscaped area.

Fallbrook Village Zones 1 through 4

~~Anywhere in the rear half of the lot.~~ See Section 8000 et seq.

- b. Covered Parking. Covered or enclosed parking spaces may be located anywhere on a building site where a structure may be located. In the Fallbrook Village Zones 1 through 4, covered or enclosed parking spaces shall be outside the ultimate right-of-way of any street and shall be located ~~in the rear half of the lot~~ generally behind a building.
- a-c. Bicycle Spaces. Bicycle spaces shall be located:
1. At least as close and accessible to the use or building served as is the most convenient motor vehicle parking (other than handicapped parking).
 2. As close to building entrances as is practical without interfering with pedestrian traffic.
 3. At ground level.
- d. Exceptions. A use permit, Variance, Administrative Permit, or historic district site plan may specify the location of parking areas and bicycle spaces in locations other than as required by Paragraphs "a" and "c": with the required finding that the exception to the bicycle spaces or open parking regulations does not create a safety hazard with site distance for the access to the site.

Section 33. Section 6788 of the San Diego County Zoning Ordinance is hereby amended to read as follows:

6788 COLLECTIVE PROVISION OF OFF-STREET PARKING AND ACCESS.

~~A major use permit may be granted to authorize collective~~ Collective off-street parking facilities ~~serving that serve two or more uses, or structures sharing a common lot line in locations subject to commercial, industrial, or S86 Use Regulations~~ may be authorized subject to the following requirements:

- a. The total parking spaces in such collective off-street parking facilities shall not be less than the sum of the requirements for the individual buildings or uses computed separately in accordance with ~~these~~ the County Parking Regulations, unless a ~~major use permit approved pursuant to this section~~ specifies another amount.
- b. ~~The major use permit may be conditioned upon the reclassification of the parking area to the S86 Parking Use Regulations, the provision of landscaping, and other appropriate requirements.~~ Collective Parking Agreement Is Required – The applicant must submit a signed agreement between the applicant and the other property owner(s) providing the collective parking spaces that grants a Reciprocal Easement for public utility purposes, ingress and egress to and from adjacent public right-of-way, access and parking over the common areas on each of the parcels and that establishes by agreement the use and maintenance of the common areas. The

agreement shall be subject to the approval of the Director as to form and content and shall be recorded with the Office of the County Recorder.

- c. Parking Information – The Director may require the applicant to submit parking information on the uses and the associated number of parking spaces required, by the County Parking Regulations, a permit or another parking agreement, for each of the properties involved in the collective parking agreement.

Section 34. Section 6790 of the San Diego County Zoning Ordinance is hereby amended to read as follows:

6790 PARKING SPACE DIMENSIONS PLAN REQUIREMENTS.

- a. ~~Design Manual to Specify. The design manual adopted pursuant to Section 6793C shall establish the minimum dimensions for parking spaces. The Director may require larger dimensions if he determines that larger dimensions are needed to provide safe and adequate parking in specific situations.~~
- b. ~~Handicapped Parking. At least one space of the required parking spaces in any parking area shall be designed for handicapped parking as specified in the design manual. Such spaces shall be located as close as possible to the entrance of the use or structure, and shall be reserved and designated for handicapped persons. The total number of required handicapped spaces shall be that specified in the design manual.~~

Where required, parking plans submitted to the Department of Planning and Land Use shall include the following, as a minimum:

- a. The number of parking spaces required for each land use
- b. The total number of parking spaces required and provided
- c. The number of accessible car spaces required and provided
- d. The number of bicycle parking spaces required and provided
- e. The percent of area devoted to landscaping

Additional information may be required by the Director as necessary to determine compliance with parking regulations.

Section 35. Section 6792 of the San Diego County Zoning Ordinance is hereby amended to read as follows:

6792 DESIGN OF BICYCLE STORAGE SPACE FACILITIES. DESIGN STANDARDS FOR OFF-STREET PARKING.

- a. ~~Enclosed Bicycle Spaces. Structures or lockers containing enclosed bicycle spaces shall be designed and constructed so that such structures or bicycles within them cannot be easily removed. In enclosed bicycle spaces which are not divided into individual lockers or racks, one space shall consist of a floor area at least 2 feet wide and 6 feet long, served by an aisle at least 5 feet wide. Enclosed bicycle spaces may be used in lieu of open bicycle spaces.~~

~~b. Bicycle Spaces. Bicycle racks shall be so designed and constructed that a bicycle can be securely locked with a user-supplied padlock. Racks shall provide a space at least 2 feet in width for each bicycle.~~

~~c. General Criteria. Bicycle spaces shall be:~~

- ~~1. Clearly designated as being for bicycle parking.~~
- ~~2. Separated from motor vehicle parking areas and driveways by a barrier, or shall be located in a manner which will minimize the possibility of vehicles striking parked bicycles.~~

The design, dimensions, construction, landscaping, and surfacing of parking and bicycle spaces, driveways and other areas shall conform to the County Parking Regulations. Additional guidance is provided by the County Parking Design Manual.

a. Parking Space Dimensions. Each required parking space shall be at least 9' wide by 18' long, with adequate provisions for ingress and egress by a standard full size passenger vehicle. The width of a parking space shall be increased by 2'-0" when adjacent to fences, walls, and planters. Parking spaces in parking lots shall comply with the minimum dimension requirements in **Table 1** and **Figure 1**.

All driveways and curb openings shall be a minimum of 3' from any obstruction, i.e. poles, hydrants, buildings, walls, and fences.

b. Parking Aisles.

1. One-Way and Two-Way Traffic Aisles. One-way access driveways leading to aisles within a parking area shall be a minimum of 12' wide. Two-way aisles and access driveways leading to aisles within a parking area shall be a minimum of 24' wide. Minimum aisle widths for one-way drive aisles within a parking area are shown in Table 1 and Figure 2. **A typical parking lot layout is illustrated in Figure 3.**
2. Fire Access Aisles. Designated fire access aisles must comply with the County's Consolidated Fire Code and/or the Fire Authority Having Jurisdiction. Minimum unobstructed fire access width is 24 feet. Vertical clearance minimum is 13 feet 6 inches. The Fire Authority Having Jurisdiction may require greater dimensions.
3. Truck Aisles. Access aisles for multiple-axle trucks in commercial and industrial projects shall be a minimum width of 40' for projects with a gross floor area of 10,000 square feet or greater or where the design of the project includes a loading dock. Truck movement templates (i.e. turning radii elements including wheel paths, which define the needed width of pavement edge that must be clear from obstructions above curb height) shall be included on the site plan to indicate turning conditions.

4. Drive-Through Aisles. All projects which feature drive-through facilities (bank, fast-food, etc.) shall provide a drive-through aisle capable of a reasonable queuing of vehicles without impeding the circulation of traffic within the parking area or abutting driveway or street travel way. Drive-through aisles should not cross pedestrian pathways and be clearly designated with striping and/or signage. See the Schedule of Parking Requirements for specifications.

c. Parking Details.

1. Surfacing. Except for zones subject to the Agricultural Use Regulations, all parking spaces, loading spaces, and driveways shall be hard surfaced with durable asphalt concrete or Portland Cement Concrete surfacing on a suitably prepared base. Parking spaces and driveways accessory to single-family and duplex dwellings need not be surfaced with a more durable type of surfacing than that which exists on the access street. Driveways and aisles designated for "fire access" must be capable of supporting fire apparatus (minimum 50,000 pounds) unless a greater minimum is required by the Fire Authority Having Jurisdiction.

Table 2 summarizes the required paving thickness of A/C and base according to soil classification, and shall be used unless a suitable alternative pavement design by a registered civil engineer is submitted and approved by the Director, Department of Planning and Land Use. Soil classifications are as established based on the R-value, or resistance value, which identifies the strength of soil from vertically applied pressure. R-value is a factor used in pavement design in the San Diego Regional Standard Drawings to determine the necessary thickness of paving required. Soil classifications identified in Table 2 are established as follows:

Good to Excellent Subbase: soil with an R value of 40 or greater.

Medium Subbase: soil with an R value of 20 to 39

Poor Subbase: soil with an R value less than 20

Where permeable surfacing alternatives are desired or required to protect surface water quality and/or implement Low Impact Development practices, an alternative design may be approved by the Director which demonstrates adequate material strength, satisfaction of local and regional standards, and community character preferences. Structural equivalence should be demonstrated based upon published criteria by Caltrans or AASHTO.

Within the desert areas of the North Mountain, Mountain Empire, and Desert Subregional Plan areas, 4" of decomposed granite or suitable alternate material may be approved by the Director in lieu of more durable paving on residential driveways.

2. Vehicular bumper overhang is prohibited in all areas where the parking stall is adjacent to a fence, wall, building or structure, to a pedestrian walkway of less than 7' in width, to planter beds (unless the first 3' from curb is low volume or subsurface irrigation or to a non-irrigated material), or to an interlocking parking space.
3. Wheel Stops. If a wheel stop is used in the parking stall, it shall be 4" high and 4' to 6' long. The distance from the front end of the space to the rear of the wheel stop shall be 3'. It shall be placed so as to avoid bumper overhang beyond the designated parking space and to avoid creating a safety hazard for pedestrians. Figure 4 illustrates typical wheel stop dimensions
4. Striping. All parking spaces shall be delineated by striping consisting of 4" wide painted white lines.

Figure 4
Example of Wheel Stop Dimensions

5. Bicycle Parking. Newly constructed non-residential uses shall provide bicycle parking in accordance with the 2010 California Green Building Standards Code Sections 5.106.4.1 and 5.106.4.2, or meet local ordinance or the University of California Policy on Sustainable practices, whichever is stricter. The 2010 California Green Building Standards Code provides standards for the provision of both short-term bicycle parking for visitors and long-term bicycle parking for building tenant-occupants.

One bicycle parking space shall consist of a floor area at least 2' wide and 6' long, served by an aisle at least 5' wide for bicycle spaces which are not divided into individual lockers or racks. Bicycle racks should be so designed and constructed

that a bicycle can be securely locked with a user-supplied padlock. Racks shall provide a space at least 2' in width for each bicycle.

6. Tandem Parking. Tandem parking represents a parking configuration where one vehicle parks directly behind another and the vehicle in back must be moved in order for the front vehicle to leave. Tandem parking shall be limited to a maximum of two cars in depth and should be 9' wide and 36' long. When determining access aisle widths for tandem parking, the aisle widths for standard stalls should be used. Parking spaces for persons with disabilities shall not be used in a tandem configuration.

Tandem parking stalls are only allowed for:

- i. Residential use – single family, duplex, and townhome uses.
 - ii. Multi-family residential uses – subject to the following conditions:
 - a) The tandem spaces should be reserved for and assigned to dwelling units which are required to have two or more parking spaces.
 - b) At least 10 percent of the total parking spaces provided on the site should be unassigned standard (non-tandem) spaces that are available for the use of visitors.
 - iii. Commercial uses – Tandem spaces should not be allowed for new commercial construction. Tandem spaces may only be allowed for existing commercial buildings or existing buildings that are undergoing a change of use and are subject to the following conditions:
 - a) The tandem spaces should be reserved for use by employees and should be designated for employee parking through the use of signage or pavement marking.
 - b) At least 50 percent of the require spaces should be unassigned standard (non-tandem) spaces that are available for the use of visitors.
7. Clean Air Vehicle Parking. In accordance with the 2010 California Green Building Standards Code, newly constructed non-residential uses shall provide designated parking for any combination of low-emitting, fuel efficient and carpool/van pool vehicles. Parking spaces provided for clean air vehicle will be credited towards the minimum parking requirement per the Zoning Ordinance.
- d. Lighting. Adequate lighting shall be provided in all parking areas used by the public for safe pedestrian and vehicular movement. A Lighting Plan for parking lot sites with 5 or more parking spaces shall be provided. Lighting should clearly identify the parking lot, entrances and exits to adjacent streets, and enhance the pedestrian environment. Lighting Plans should be appropriate to the location, context and scale of the areas being lit.

- e. Landscaping. Landscaping in and around parking areas improves visual aesthetics, reduces soil erosion and carbon dioxide emissions, and provides shade while minimizing the heat island effect that results from asphalt and/or large building block surfaces such as parking lots. Therefore, adequate and properly maintained landscaping is a significant component to parking lot design. Figure 5 illustrates some of the landscaping requirements.

Figure 5
Landscaping Requirements in Parking Lots

Landscaping General Requirements. In parking areas with 5 or more parking spaces, a minimum of 14 square feet of landscape shall be provided per parking space. Landscaping may be provided in parking lot planters and/or for perimeter screening. Parking lot landscaping shall be provided in addition to other landscaping requirements in the right-of-way or setback areas by the M50 and M52 Use Regulations, by any other Ordinances or discretionary application approvals. Within the Fallbrook Village areas, see Section 8000 et seq. of the Zoning Ordinance.

1. A minimum of one 24" boxed tree per 5 parking spaces is required for a parking area.
2. Planter strips with shrubs shall have a minimum unpaved width of 2'. Planter strips with trees shall have a minimum unpaved width of 5'. Where feasible, planter strips should be concave to help channel stormwater runoff.
3. High shrubs or small trees may be used for perimeter planting, except at driveway entrances where plant material shall be positioned to avoid obstructing motorist views and be sensitive to sight distance requirements.
4. Trees along designated fire access roads/driveways/aisles shall provide a minimum 13'-6" vertical clearance for the full fire access width.
5. Landscape islands located at the end of parking aisles shall be a minimum of 2' shorter than the parking stall length to prevent wheels from running into the curb when turning in our backing out of a space.

f. Residential Parking for Detached Single Family, Duplexes, and Triplexes

1. Driveways. A residential driveway shall have a minimum length of 20' between the garage door and public right-of-way. Reduced driveway lengths may be permitted for driveways on private roads pursuant to project approval provided it can be shown that the reduced driveway length does not interfere with a sidewalk or other designated pathway. **Figure 6** illustrates the minimum length for residential driveways.

Driveways with a grade greater than 15 percent shall be hard-surfaced and have a deep broom finish perpendicular to the direction of travel. Driveways which serve as required fire access must meet additional requirements specified in the applicable Fire Code.

Where driveways cross existing roadside ditches, a dip section providing an unobstructed waterway equivalent to the full area of the ditch may be used if grades are feasible. Where grades make use of a dip section infeasible, a culvert pipe shall be installed. The size of the culvert pipe and design of the driveway culvert shall be reviewed for adequacy by the Department of Public Works.

2. Garages. For all enclosed residential garages, a minimum parking space size 10' wide by 20' long is required for parking spaces where the length of the space is next to a wall and 9' wide by 20' long for any additional spaces. The space(s) should be designated to be free from obstruction (i.e. water heater, laundry equipment, etc.).

Figure 6
Minimum Length for Residential Driveways

Section 36. Section 6793 of the San Diego County Zoning Ordinance is hereby repealed.

6793 — DESIGN STANDARDS FOR OFF-STREET PARKING.

Parking spaces and areas shall meet the following design and improvement standards:

- a. ~~Surfacing. All parking spaces or areas, loading spaces and driveways serving them shall be hard surfaced in accordance with the specifications set forth in the design manual. The type of surfacing for proposed parking spaces and driveways shall be indicated on all plot plans which accompany building construction plans.~~
- b. ~~Landscaping. Except in zones subject to the C37, C38, C40, M54, M58, S80, S82, S88, S90, S92, and S94 Use Regulations, an area at least equal to 5 percent of the area of any parking area shall be landscaped in conformance to the requirements of Paragraph "c" of this Section and in accordance with the provisions of sections 86.701 et seq. of the County Code.~~
- c. ~~Design Manual. The design, dimensions, construction, landscaping, and surfacing of parking and bicycle spaces, driveways and other areas shall conform to the requirements of the Offstreet Parking Design Manual. The Director may administratively waive or modify one or more such requirements when practical difficulties make their strict application infeasible, and upon a finding that the waiver or modification is consistent with the purpose and intent of the Offstreet Parking Design Manual and this section. The Director shall submit any amendments to the design manual to the Planning Commission for its review and comment prior to transmitting them to the Board of Supervisors.~~

Section 37. Section 6795 of the San Diego County Zoning Ordinance is hereby amended to read as follows:

6795 WAIVER, MODIFICATION, VARIANCES FROM PARKING REGULATIONS.

The requirement for design, dimensions, construction, landscaping, and surfacing of parking and bicycle spaces, driveways and other areas may be administratively waived or modified by the Director when practical difficulties make their strict application infeasible and upon a finding that the waiver or modification is consistent with the purpose and intent of Section 6792. Any other waiver or modification of these Parking Regulations shall be allowed only in accordance with the Variance Procedure commencing at Section 7100, unless otherwise specified.

Section 38. Section 6799 of the San Diego County Zoning Ordinance is hereby amended to read as follows:

6799 PARKING OF COMMERCIAL VEHICLES IN RESIDENTIAL, AGRICULTURAL AND CERTAIN SPECIAL PURPOSE ZONES.

No person shall park any "commercial vehicle" as defined by the California Vehicle Code in excess of one ton capacity on private property in Residential, Agricultural and the S90 and S92 Special Purpose Zones except as follows:

- a. When loading or unloading property, or
- b. When such vehicle is parked in connection with, and in aid of, the performance of a service to or on property in the block in which such vehicle is parked.

These exceptions do not authorize parking in violation of Fire Lane parking restrictions as detailed in the California Vehicle Code section 22500.1.

Notwithstanding the above provisions, no commercial vehicle shall remain parked in excess of five consecutive hours. Section 6799 does not apply to recreational vehicles or farm vehicles or equipment, including maintenance equipment, necessary for agricultural production on the property where the vehicles and equipment are parked. In Agricultural Zones and the S90 and S92 Special Purpose Zones, a maximum of two vehicles of up to two tons capacity may be parked by a person owning said vehicles and owning the property where they are parked and who is conducting ~~an agriculturally-related service or activity~~ a commercial agricultural operation located on site or elsewhere.

Section 39. Section 8130 of the San Diego County Zoning Ordinance is hereby amended to read as follows:

8130 PARKING REGULATIONS

- a. Purpose And Intent

The intent of the Fallbrook Village parking regulations is to ensure adequate off-street parking in relation to allowed uses and activities. The regulations are also intended to maintain and enhance existing zero front yard setback development patterns in the traditional downtown commercial district consistent with the Fallbrook Design Guidelines.

To achieve this purpose, all of the Village 1 Zone is located in the Fallbrook Special Parking District with provision for meeting parking requirements in shared parking lots.

b. Parking Requirements

All of the V1 Zone is included in the Fallbrook Special Parking District (see Zoning Ordinance Section 5761).

In the V1 Zone, the number of spaces required by the Parking Schedules in Sections 6758 through 6780~~3~~ may be reduced up to 25%.

c. Relationship of Required Parking to Building Site

Required parking and bicycle spaces may be located on the same legal parcel with the use or structure they are intended to serve. The parking requirement may and should preferably be met through participation in a shared parking lot. Parking requirements may be fulfilled on-site or on any other property within 900 feet of the site requiring the parking. Evidence must be provided to the County that parking lot ownership shares have not been previously used or counted to meet the parking requirements for any other existing business. The parking spaces shall be tied to the property receiving the permit using a method acceptable to the Director of Planning and Land Use.

d. Location of Parking on a Building Site

1. Bicycle Spaces. Bicycle spaces, if provided, shall be located:
 - a) At least as close and accessible to the use or building served as is the most convenient motor vehicle parking (other than handicapped parking).
 - b) As close to the building entrances as is practical without interfering with pedestrian traffic.
 - c) At ground level.
2. Covered Parking. Covered or enclosed parking spaces shall be outside the ultimate right-of-way of any street and shall be located in the rear half of the lot. This provision does not apply to any shared parking lot provided pursuant to Section 8130 c. that does not have a building on the same legal parcel.
3. Open Parking. Open parking spaces shall be outside the ultimate right-of-way of any street and shall be located generally behind a building. This provision does not apply to any shared parking lot provided pursuant to Section 8130 c. that does not have a building on the same legal parcel.
4. Exceptions. A Use Permit, Variance, or Administrative Permit may specify the location of parking areas and bicycle spaces in locations other than as required by Section 8130.d. 1 – 3 above.

e. Parking Space Dimensions

1. ~~Offstreet Parking Design Manual to Specify. The Offstreet Parking Design Manual adopted pursuant to Section 6793.c shall establish the minimum dimensions for parking spaces.~~ The minimum dimensions for parking spaces shall be as specified in Section 6792 of the Zoning Ordinance. The Director may require larger dimensions if he determines that larger dimensions are needed to provide safe and adequate parking in specific situations.
2. ~~Handicapped Accessible Parking.~~ At least one space of the required parking, if any, in any parking area shall be designed for ~~handicapped~~ accessible parking as specified in the ~~Offstreet Parking Design Manual~~ and the Uniform California Building Code. Such spaces shall be located as close as possible to the entrance of the use or structure, and shall be reserved and designated for ~~handicapped~~ accessible persons. The total number of required ~~handicapped~~ accessible spaces shall be that specified by the ~~Offstreet Parking Design Manual~~ and the Uniform Building Code California Code of Regulations (Title 24) of the California Building Code.

f. Design Standards for Off-street Parking

Parking spaces and areas shall meet the following design and improvement standards:

1. Surfacing. All parking spaces or areas, loading spaces and driveways serving them shall be hard surfaced in accordance with the specifications set forth in the ~~Offstreet Parking Design Manual~~. The type of surfacing for proposed parking spaces and driveways shall be indicated on all plot plans that accompany Site Plan applications and building construction plans.
2. Landscaping. An area at least equal to 5 percent of the area of any parking area shall be landscaped in conformance to the requirements of Paragraph 3) of this Section and Section 6712.
3. ~~Offstreet Parking Design Manual.~~ The design, dimensions, construction, landscaping, and surfacing of parking and bicycle spaces, driveways and other areas shall conform to the requirements of the ~~Offstreet Parking Design Manual~~ Section 6792 of the Zoning Ordinance. The Director may administratively waive or modify one or more such requirements when practical difficulties make their strict application infeasible, and upon a finding that the waiver or modification is consistent with the purpose and intent of ~~the Offstreet Parking Design Manual~~ and this section.

Section 40. Section 8230 of the San Diego County Zoning Ordinance is hereby amended to read as follows:

8230 PARKING REGULATIONS

a. Purpose And Intent

The intent of the Fallbrook Village parking regulations is to ensure adequate off-street parking in relation to allowed uses and activities. The regulations are also intended to maintain and enhance existing zero front yard setback development patterns in the traditional downtown commercial district, consistent with the Fallbrook Design Guidelines. To achieve this purpose, all of the Village 2 Zone is located in the Fallbrook Special Parking District with provision for meeting parking requirements in shared parking lots.

b. Parking Requirements

All of the V2 Zone is included in the Fallbrook Special Parking District (see Zoning Ordinance Section 5761).

In the V2 Zone the number of spaces required by the Parking Schedules in Section 6758 through 6780~~3~~ may be reduced up to 25%.

c. Relationship of Required Parking to Building Site

Required parking and bicycle spaces may be located on the same legal parcel with the use or structure they are intended to serve. The parking requirement may and should preferably be met through participation in a shared parking lot. Parking requirements may be fulfilled on-site or on any other property within 600 feet of the site requiring the parking. Evidence must be provided to the County that parking lot ownership shares have not been previously used or counted to meet the parking requirements for any other existing business. The parking spaces shall be tied to the property receiving the permit using a method acceptable to the Director of Planning and Land Use.

d. Location of Parking On A Building Site

1. Bicycle Spaces. Bicycle spaces, if provided, shall be located:

- a) At least as close and accessible to the use or building served as is the most convenient motor vehicle parking (other than handicapped parking).
- b) As close to the building entrances as is practical without interfering with pedestrian traffic.
- c) At ground level.

2. Covered Parking. Covered or enclosed parking spaces shall be outside the ultimate right-of-way of any street and shall be located in the rear half of the lot. This provision does not apply to any shared parking lot provided pursuant to Section 8230 c. that does not have a building on the same legal parcel.

3. Open Parking. Open parking spaces shall be outside the ultimate right-of-way of any street and shall be located generally behind a building. This provision does not apply to any shared parking lots provided pursuant to Section 8230 c. that does not have a building on the same legal parcel.
 4. Exceptions. A Use Permit, Variance Or Administrative Permit may specify the location of parking areas and bicycle spaces in locations other than as required by Section 8230.d.1 – 3 above.
- e. Parking Space Dimensions
1. ~~Offstreet Parking Design Manual to Specify. The Offstreet Parking Design Manual adopted pursuant to Section 6793.c shall establish the minimum dimensions for parking spaces.~~ The minimum dimensions for parking spaces shall be as specified in Section 6792 of the Zoning Ordinance. The Director may require larger dimensions if he determines that larger dimensions are needed to provide safe and adequate parking in specific situations.
 2. ~~Handicapped Accessible Parking. At least one space of the required parking, if any, in any parking area shall be designed for handicapped accessible parking as specified in the Offstreet Parking Design Manual and the Uniform California Building Code. Such spaces shall be located as close as possible to the entrance of the use or structure, and shall be reserved and designated for handicapped accessible persons. The total number of required handicapped accessible spaces shall be that specified by the Offstreet Parking Design Manual and the Uniform Building Code.~~ California Code of Regulations (Title 24) of the California Building Code.
- f. Design Standards for Off-Street Parking

Parking spaces and areas shall meet the following design and improvement standards:

1. Surfacing. All parking spaces or areas, loading spaces and driveways serving them shall be hard surfaced in accordance with the specifications set forth in the ~~Offstreet Parking Design Manual~~. The type of surfacing for proposed parking spaces and driveways shall be indicated on all plot plans that accompany Site Plan applications and building construction plans.
2. Landscaping. An area at least equal to 5 percent of the area of any parking area shall be landscaped in conformance to the requirements of Paragraph 3) of this Section and Section 6712.
3. ~~Offstreet Parking Design Manual.~~ The design, dimensions, construction, landscaping, and surfacing of parking and bicycle spaces, driveways and other areas shall conform to the requirements of the ~~Offstreet Parking Design Manual~~ Section 6792 of the Zoning Ordinance. The Director may administratively waive or modify one or more such requirements when practical difficulties make their strict application infeasible, and upon a finding that the waiver or modification is consistent with the purpose and intent of ~~the Offstreet Parking Design Manual and this section.~~

Section 41. Section 8330 of the San Diego County Zoning Ordinance is hereby amended to read as follows:

8330 PARKING REGULATIONS

a. Purpose and Intent

The intent of the Fallbrook Village parking regulations is to ensure adequate off-street parking in relation to allowed uses and activities. The regulations are also intended to maintain and enhance existing zero front yard setback development patterns in the traditional commercial district consistent with the Fallbrook Design Guidelines. To achieve this purpose, a portion of the Village 3 Zone is located in the Fallbrook Special Parking District and all of the Village 3 Zone provides for reduced parking requirements with provision for meeting parking requirements in shared parking lots.

b. Parking Requirements

The portion of the V3 Zone specified in Section 5761.b.1 is included in the Fallbrook Special Parking District (see Zoning Ordinance Section 5761).

In the V3 Zone, the number of spaces required by the Parking Schedules in Sections 6758 through 6780~~3~~ may be reduced up to 25%.

c. Relationship of Required Parking to Building Site

Required parking and bicycle spaces may be located on the same legal parcel with the use or structure they are intended to serve. The parking requirement may and should preferably be met through participation in a shared parking lot. Parking requirements may be fulfilled on-site or on any other property within 600 feet of the site requiring the parking. Evidence must be provided to the County that parking lot ownership shares have not been previously used or counted to meet the parking requirements for any other existing business. The parking spaces shall be tied to the property receiving the permit using a method acceptable to the Director of Planning and Land Use.

d. Location of Parking On A Building Site

1. Bicycle Spaces. Bicycle spaces, if provided, shall be located:

- a) At least as close and accessible to the use or building served as is the most convenient motor vehicle parking (other than handicapped parking).
- b) As close to the building entrance as is practical without interfering with pedestrian traffic.
- c) At ground level.

2. Covered Parking. Covered or enclosed parking spaces shall be outside the ultimate right-of-way of any street and shall be located in the rear half of the lot. This provision does not apply to any shared parking lot provided pursuant to Section 8330 c. above that does not have a building on the same legal parcel.

3. Open Parking. Open parking spaces shall be outside the ultimate right-of-way of any street and shall be located generally behind a building. This provision does not apply to any shared parking lot provided pursuant to Section 8330 c. above that does not have a building on the same legal parcel.
 4. Exceptions. A use permit, variance or administrative permit may specify the location of parking areas and bicycle spaces in locations other than a required by Section 8330 d. 1 – 3.
- e. Parking Space Dimensions
1. ~~Offstreet Parking Design Manual to Specify. The Offstreet Parking Design Manual adopted pursuant to Section 6793.c shall establish the minimum dimensions for parking spaces.~~ The minimum dimensions for parking spaces shall be as specified in Section 6792 of the Zoning Ordinance. The Director may require larger dimensions if he determines that larger dimensions are needed to provide safe and adequate parking in specific situations.
 2. ~~Handicapped Accessible Parking.~~ At least one space of the required parking, if any, in any parking area shall be designed for ~~handicapped~~ accessible parking as specified in the ~~Offstreet Parking Design Manual~~ and the Uniform California Building Code. Such spaces shall be located as close as possible to the entrance of the use or structure, and shall be reserved and designated for ~~handicapped~~ accessible persons. The total number of required ~~handicapped~~ accessible spaces shall be that specified by the ~~Offstreet Parking Design Manual and the Uniform Building Code~~ California Code of Regulations (Title 24) of the California Building Code.
- f. Design Standards for Off-Street Parking

Parking spaces and areas shall meet the following design and improvement standards:

1. Surfacing. All parking spaces or areas, loading spaces and driveways serving them shall be hard surfaced in accordance with the specifications set forth in the ~~Offstreet~~ Parking Design Manual. The type of surfacing for proposed parking spaces and driveways shall be indicated on all plot plans that accompany Site Plan applications and building construction plans.
2. Landscaping. An area at least equal to 5 percent of the area of any parking area shall be landscaped in conformance to the requirements of Paragraph 3) of this Section and Section 6712.
3. ~~Offstreet Parking Design Manual.~~ The design, dimensions, construction, landscaping, and surfacing of parking and bicycle spaces, driveways and other areas shall conform to the requirements of the ~~Offstreet Parking Design Manual~~ Section 6792 of the Zoning Ordinance. Section 42. Section 8430 of the San Diego County Zoning Ordinance is hereby amended to read as follows:

8430 PARKING REGULATIONS

a. Purpose and Intent

The intent of the Fallbrook Village parking regulations is to ensure adequate off-street parking in relation to allowed uses and activities. The regulations are also intended to maintain and enhance existing zero front yard setback development patterns in the traditional commercial district consistent with the Fallbrook Design Guidelines. To achieve this purpose, all of the Village 4 Zone provides for reduced parking requirements with provision for meeting parking requirements in shared parking lots.

b. Parking Requirements

In the V4 Zone, the number of spaces required by the Parking Schedules in Sections 6758 through 6780~~3~~ may be reduced up to 25%.

c. Relationship of Required Parking to Building Site

Required parking and bicycle spaces may be located on the same legal parcel with the use or structure they are intended to serve. For any property in the V4 Zone, the parking requirement may and should preferably be met through participation in a shared parking lot. Parking requirements may be fulfilled on-site or on any other property within 600 feet of the site requiring the parking. Evidence must be provided to the County that parking lot ownership shares have not been previously used or counted to meet the parking requirements for any other existing business. The parking spaces shall be tied to the property receiving the permit using a method acceptable to the Director of Planning and Land Use.

d. Location of Parking On A Building Site

1. Bicycle Spaces. Bicycle spaces, if provided, shall be located:

- a) At least as close and accessible to the use or building served as is the most convenient motor vehicle parking (other than handicapped parking).
- b) As close to the building entrance as is practical without interfering with pedestrian traffic.
- c) At ground level.

2. Covered Parking. Covered or enclosed parking spaces shall be outside the ultimate right-of-way of any street and shall be located in the rear half of the lot. This provision does not apply to any shared parking lot provided pursuant to Section 8430 c. above that does not have a building on the same legal parcel.

3. Open Parking. Open parking spaces shall be outside the ultimate right-of-way of any street and shall be located generally behind a building. This provision does

not apply to any shared parking lot provided pursuant to Section 8430 c. above that does not have a building on the same legal parcel.

4. Exceptions. A use permit, variance or administrative permit may specify the location of parking areas and bicycle spaces in locations other than a required by Section 8430 d. 1 – 3.

e. Parking Space Dimensions
